## संस्थापक की कलम से

प्रिय बच्चों,

हमारे आसपास ऐसे अराजक तत्व विद्यमान हैं जो हमें अपनी ओर आकर्षित करते हैं जिनमें आज बड़े पैमाने पर चारों तरफ नशाखोरी की लत दिखाई दे रही है। कुछ ऐसे लोग हैं, जो छोटे बच्चों को प्रलोभन देकर नशे की आदत डालने में सफल हो जाते हैं। नशे की लत के कारण कम उम्र में ही बच्चे और युवा वर्ग शारीरिक, मानसिक आर्थिक रूप से बर्बाद हो रहे हैं। ऐसे लोगों से सावधान रहने की आवश्यकता है और संकल्प लेने की आवश्यकता है कि ऐसे अराजक तत्वों को बढ़ावा ना देकर हमें अपने भारत देश से इन्हें बाहर करना है। अभिभावकगण से मैं यही कहना चाहूंगा कि वह अपने बच्चों के साथ समय बिताएं, उनके साथ बैठे बातें करें, उन्हें सही गलत की जानकारी दें। इन्हीं शुभकामनाओं के साथ-

## From Academic Director's Desk

Dear students,

I hope all of you enjoy reading e-newsletter 'Pratigya'. This newsletter is carrying lots of information and all about your achievement of different competitions which are conducted every month. All of you must try to participate in all activities. We are conducting classes, tests/exams and activities through digital platform.

Effective communication is one of the key skills one must master in order to achieve success in life. Through this newsletter I want to explain you about Effective ways of communication which may help you.

1. You should be engaged listener. This means it requires genuine listening. Centre your focus on the speaker, don't interrupt the speaker, present your interest by adding small comment like 'yes' or 'I understand' and ask questions at the end if it is not clear to you. You can share your thoughts and emotions.

2. Communication is about expressing yourself. It's about exchanging your thoughts and feelings with others in an honest and open way.

3. When we communicate with each other, we rarely use only words. Most of the time, we are using our body language which includes gestures, facial expressions, voice tone, eye contact, posture to send our message. You must learn to use this properly in order to send our message as accurately as possible.

4. Words we choose to speak can have a great impact on our message, and they can determine how effectively it is passed to others. If you are working in a group or team, as a team leader you should use pronouns like 'us' and 'we' while speaking. In short, I can say words can have a lot of power if you know how and when to deliver them. Communication is a complex process that makes entire communication effective if you speak from your heart and mind.

## From Principal's Desk

An all-round personality development is our vision, and our primary goal. Our students are encouraged to do the best not in comparison of anyone but to be the best version of themselves. While mapping their own graph in academics, children peak at different times but there are other areas they can pursue to develop holistically.

To achieve this, our academic E- magazine Pratigya comprises of, student activities including science activities, painting, poster making, doctor's day celebration, no-plastic day, grow green, kargil diwas, Founders Day etc.

Our students are encouraged to strive for excellence in whatever they do and we wish them to give their best for more challenges ahead.

### COMMUNICATION LEADS TO COMMUNITY THAT IS TO UNDERSTANDING INTIMACY AND MUTUAL VALUING.

#### Communication –Its Art And Soul

Communication is key to harmonious relationship. Communication is not just another self help topic .It is how we live up to our selves. How we became the best father, mother, sister and brother. Child, spouse, co-workers, boss, employees and friend. Real communication is a creative process .Human being evolve only through interaction. Every good friendship requires mutual respect and trust and that mutual trust can grow only through effective communication.

To communicate well, we need to know how to listen, build, trust and deal with any issue that may cause tension. No matter the medium by which the communication travels. An effective leader's know how to listen to and persuade others. Characteristic of effective communication

## FRIEND WITH A SPECIAL CHILD

Papa, what's wrong with that boy?  
Why is he in a chair with wheels?

Why is that person pushing the chair with wheels? These questions are asked by our normal children to parents. We need to explain to them about special children. Special children are also same as our children but the difference is that they are unable to perform certain functions because of some problems. We need to become a good role model so that we can help our special children. We all need to open heartedly welcome and accept them. We need to respect them, be patient, loving and caring. They can excel with their incapacabilities when properly trained, guided, motivated and supported. They are differently abled rather than disabled.

## समावेशी एवं समता मूलक समाज की सीख बचपन से ही....

कोई भी एक समाज कई प्रकार के लोगों का समूह होता है। एक समाज में सबकी अलग-अलग भूमिका होती है। कोई एक परिवार या व्यक्ति किसी एक भूमिका को अपनी पसंद क्षमता या गुण के अनुसार ग्रहण करता है। इसलिए सभी एक विषय को एक ही समय में एक जैसे नहीं समझ पाते। एक परिवार में भी सभी की क्षमता और पसंद अलग-अलग होती है। लेकिन सभी एक दूसरे के पूरक होते हैं और किसी उद्देश्य को प्राप्त करने में सफल होते हैं। एक सदस्य किसी काम को बेहतर कर पाते हैं तो दूसरे सदस्य किसी और काम को इस तरह कोई बड़ा काम बेहतर तालमेल से होते हुए दिखाई देता है। आप परिवार के किसी विवाह समारोह में अक्सर देख पाते हैं जिसमें कोई भोजन व्यवस्था करते नजर आते हैं, तो कोई मेहमानों की देखरेख, तो कोई बाजार का काम कर रहे होते हैं। ग्रामीण क्षेत्र में पढ़ने वाले बच्चों की बौद्धिक क्षमता में कोई अंतर नहीं होता लेकिन उन्हें अवसर कम मिलते हैं और व्यवस्था भी। हम अक्सर देखते हैं कि स्कूल के किसी एक कक्षा में पढ़ने वाले बच्चों में भी कोई गणित में बेहतर है तो कोई भाषा में कोई खेलकूद में तो कोई गीत संगीत में उन्हें किसी एक पैमाने पर नापा नहीं जा सकता और ना ही उस आधार पर भेदभाव किया जा सकता है। अगर समाज में भेदभाव है तो उस भेदभाव को दूर करने की शुरुआत परिवारों में बच्चों से चर्चा करते हुए और स्कूल में बच्चों के बीच समझाते हुए होनी चाहिए। बच्चे स्कूल में इस बात का जरूर ध्यान दें कि कौन है जो खेल नहीं पा रहे हैं लेकिन खेलना चाहते हैं उनकी मदद कैसे करें उन्हें सिखाया कैसे जाए। कोई गणित बनाने में कठिनाई महसूस कर रहे हैं तो उन्हें कैसे आपस में सीखने के लिए समझाया जाए। इसी तरह लड़के और लड़कियों के लिए सामान खेलकूद की व्यवस्था करने पर ध्यान देना चाहिए कोई स्टेज पर अपनी बात रखने में घबराते हैं तो अवसर देकर आगे लाया जाए और बच्चों को भी समझाया जाए इस तरह के छोटे-छोटे प्रयोग बच्चों को एक भेदभाव रहित समाज की स्थापना की ओर प्रोत्साहित करेंगे।

मानव और समाज मनुष्य एक सामाजिक प्राणी है तथा वह समाज में रहता है। समाज से पृथक रहकर वह अपनी आवश्यकताओं की पूर्ति नहीं कर सकता। मानव और समाज एक दूसरे के पूरक हैं। समाज एक व्यवस्था है और इसकी एक संरचना होती है। सामाजिक जीवन से पृथक मनुष्य जीवन की कल्पना नहीं की जा सकती। मनुष्य का विकास समाज में रहकर ही संभव है। समाज मानव जीवन का अभिन्न अंग बन गया है। वह समाज में ही सब कुछ सीखता है। बदलती परिस्थितियों एवं आवश्यकताओं के कारण समाज की मान्यताओं में परिवर्तन होता रहता है। शिक्षा द्वारा व्यक्तियों में जागृति लाकर समाज को उन्नत बनाया जा सकता है। समाज मनुष्य को जीवन के सभी सुख एवं आवश्यकताओं को प्रदान करता है मनुष्य को न केवल खुद के बारे में चिंतित होना चाहिए बल्कि समग्र रूप से समाज के कल्याण और विकास के लिए भी चिंतित होना चाहिए। समाज और मानव एक सिक्के के दो पहलू हैं एक शरीर तो दूसरा आत्मा तभी तो कहा गया है कि मनुष्य एक सामाजिक प्राणी है।

किसी को भी नहीं पता था की हमारा जीवन ऐसे रुक सा जायेगा। कोविड-19 से बहुत सी चीजों को नुकसान हुआ है। ये महामारी को हराने के लिए न जाने कितने वैज्ञानिकों ने दिन रात एक कर के वैक्सीन बनाई है। लोग अपनी सुरक्षा के लिए आगे आकर वैक्सीन लगवाए और कुछ ने इस पर गलत टिप्पणी की। नुकसान हर क्षेत्र में हुआ है चाहे वो बच्चों की पढाई हो या फिर देश की अर्थव्यवस्था। ना जाने कितने बार हम घरों में बन्द हुए थे पर हमने हिम्मत न हारी। इस महामारी में जिसका सबसे बड़ा योगदान पुलिस, डाक्टर, नर्स और वैज्ञानिक का था। हम तो अपने घर से काम कर रहे थे पर इन लोगो ने अपना घर परिवार छोड कर हमारी रक्षा की है इन्होंने बस एक चीज मांगी थी कि अपने अपने घरों से ना निकले मास्क लगाए, क्या हम इतना छोटा सा काम भी नहीं कर सकते है। हमने पहले इस बीमारी को बहुत हल्के में लिया था जिसके कारण ये और बढ़ गयी थी। सबसे बुरा समय तो तब आया जब सेकंड वेव में भारत की हालत खराब हुई थी वो समय आज भी याद है, सब डर से गए थे। किसी को नहीं पता था कि आगे क्या होगा पर हम सबने हिम्मत नहीं हारी। अगर हम चाहे तो थर्ड वेव आने से रोक सकते है। विश्व स्वास्थ्य संगठन से प्राप्त सूचना के आधार पर यह पता चला है की यह बीमारी और भी ज्यादा बढ़ सकती है अगर हम सावधानी न बरते। तो इसलिए कोविड-19 के सारे नियमों का पालन करे।

Sometimes in life we need struggles to learn things . It can be seen in the way how a cocoon gets converted into a butterfly . What kind of struggle that a butterfly undergoes when it comes out from the cocoon. It relish to fly with beautiful colour wings. The same way when we faces tough times, it teaches us the lessons and make us stronger to face such difficult time with ease. Learning from the experience is the good way of learning but the best way is to learn from the experience of others rather than experiencing the same by self and than learning it. It is the LISTENING, LEARNING, STRUGGLE AND EXPERIENCE that will make use successful in life .Listening to the teachers,parents and elders as they are sharing their experiences. Learning not only from the books but also from the the world around us. At last "Struggle for achieving the best make us laudable".

.. सफल होना है तो चलना ही होगा

बच्चों आपने कभी बहती हुई नदी को देखा है, वह बड़ी तेजी से अपने ओरिजिन पॉइंट से बहना शुरू करती है। वह अपनी मंजिल (लक्ष्य) अर्थात सागर को प्राप्त करने के लिए चलती रहती है। रास्ते में हजारों बाधाएँ आने पर भी वह लगातार बहती रहती है, भले ही उसके बहाव में भी धीमापन आ जाए पर वह बहना नहीं छोड़ती है जब तक वह अपने लक्ष्य को प्राप्त नहीं कर लेती है। आप सोचिए यदि नदी बीच में बहना छोड़ दे तो क्या होगा उसका पानी रुक जाएगा और कुछ ही दिनों में सूख कर नष्ट हो जाएगी। बस वैसे ही बच्चों हमारा और आपका जीवन है, यदि सफल होने के लिए आप कोई लक्ष्य तय करते हैं तो उस लक्ष्य तक पहुँचने के लिए आप को रुकना नहीं है बढ़ते ही रहना है और यदि रुक गए तो सफलता हासिल नहीं कर सकते हैं।

अपने लक्ष्य तक पहुँचने और सफल होने के लिए हमें कई मुसीबतों का सामना करना पड़ता है। भले ही वह अपने लक्ष्य तक पहुँचने में समय लेता है, लेकिन आपको चलते ही रहना है। जिस प्रकार आपने देखा कि कोरोना काल में चारों ओर इतनी मुसीबत, इतना बड़ा संकट होने के बाद भी सभी लोग एक दूसरे के साथ मिलकर चलते हुए उसको कोरोना नामक बीमारी को समाप्त करने के लिए कोई ना कोई प्रयास करते रहे। जिसके कारण आज लगभग कोरोना में कमी आ गई है।

जैसे समय हमेशा चलते रहता है, अपना दिल हमेशा चलता है, और यदि दिल रुक गया तो आप हमेशा के लिए रुक जाते हैं। जिस प्रकार हमारे शरीर के बहुत से अंग हमेशा चलते रहते हैं और यह संदेश देते हैं कि लगातार चलने से ही आप लक्ष्य की प्राप्ति अर्थात सफलता को प्राप्त कर सकते हैं।

"विवेकानंद जी ने भी सही कहा है"-

### CYBERETHICS

Teaching children cyberethics is something we must do to protect them. Now a days everything is online. For educators and parents, using cyberethics principles could be a great way to ensure children know how to avoid the numerous threats around the digital space. We must help children the real risks and scope of cyber threats. An excellent way to approach cyberethics education is to address misconceptions children might have about the topic.

For example, one common myth children believe is that having an antivirus app installed on a computer protects one from all cyber threats. The reality is very different.

We need to teach kids empathy and how to avoid unacceptable online behaviours. Sometimes even a text message can be extremely hurtful and lead to unexpected consequences. That's why it's important to teach children that writing online messages, comments, replies, and other texts without thinking first is a major part of ethical behaviour. We need to teach children to respect other people's feelings.

In many cases, children don't let their parents, teachers, or peers know that they're getting bullied online. That's why we need to help children know how to protect themselves online. They can start by knowing their school's policies for reporting bullying. They should also know that they can report the bad behaviour to the platform or social media network where it occurs. Also, we can let them know that we will support them regardless of the situation, so they feel more comfortable sharing any details.

The right time to start educating children about cyber ethics is: *as soon as possible.*

## EVENTFUL HOLY HEARTS

NIRBHAYA CLUB ACTIVITY (CLASSES 1 TO 5)

**TOPIC: To develop the awareness among the students about Good Touch and Bad Touch and how to safeguard themselves and ensure their safety and well being.**

**Resources used: Google slides, video (short story)**

### **Summary:**

1. With the help of Google slides students were explained about the body parts which are to be kept covered at all times. Chest and reproductive organs are called private parts of our body and nobody is allowed to touch them except parents and doctors and that too in the presence of parents.

2. There are three types of touches. Good touch, ok-ok touch and Bad touch. Students should be able to differentiate between them. The affectionate touch that our parents, grandparents do is called a good touch. Holding hands of friends while playing is an ok-ok touch. Whereas touch by strangers or someone who makes us feel uncomfortable is a bad touch.

3. If ever you encounter a bad touch, if someone touches you on your private part, you should immediately shout and run away from there. You should go and inform your parents or grandparents about it. You should not feel shameful or guilty about it. It is not your fault.

Activity performed by students: On the A4 size paper, write few lines about 'What will you do if you get a bad touch?' Paste pictures if required.

### **Learning Outcomes:**

1. Information about private places and their safety
2. Good Touch and Bad Touch
3. What to do if they face such situation.

### पेड़

हरे-भरे देखो यह पेड़,  
लगते कतने प्यारे पेड़ ।  
नाचे- झुमे हवा में पेड़ ,  
हमको जीवन देते पेड़ ॥

चलकर धूप में जब थक जाते,  
छाया देते हमको पेड़ ।  
झलमल कर पत्तों से पंखा,  
मीठी नींद सुलाते पेड़ ॥

मीठे फल से भरी टोकरी,  
घर की खड़की या दरवाजे ।  
लाकर देते हमको पेड़ ,  
हमको देते जीवन पेड़ ॥

पेड़ हमें लगाना है  
पेड़ हमें लगाना है , पेड़ हमें लगाना है ,  
पेड़ नहीं तो धरती नहीं ,  
पेड़ हमें देते सांस ।  
पेड़ नहीं तो अनाज नहीं ।  
कुल्हाड़ी से मत इनको काटो,  
पेड़ लगाकर खुशहाली बाँटो ।  
पेड़ से होती चारों ओर हरियाली  
पेड़ के बिना जीवन खाली  
पेड़ों से बाढ़ प्रदूषण का खतरा नहीं  
पेड़ के बिना हम सब भी नहीं ।

सुनो, प्रकृति की यह आकुल पुकार ,  
कहती है यह, वृक्ष मत काटो ।  
छलनी हो रहा शरीर हमारा,  
अब तो हमारा क्रंदन सुन लो ।  
धरा भी क्षण-क्षण कह रही ,  
वृक्ष प्राणों का है आधार ।  
बंजर से इसे सुने तन पर,  
वृक्ष धरती का है श्रृंगार ।  
मत चलाओ शस्त्र वृक्ष पर,  
मानो यह ईश्वर का अनुदान है।  
इन पेड़ों से भूजल स्तर भी बढ़ेगा,  
जीवन हेतु ये वरदान है ।

### Kavad Katha of Rajasthan

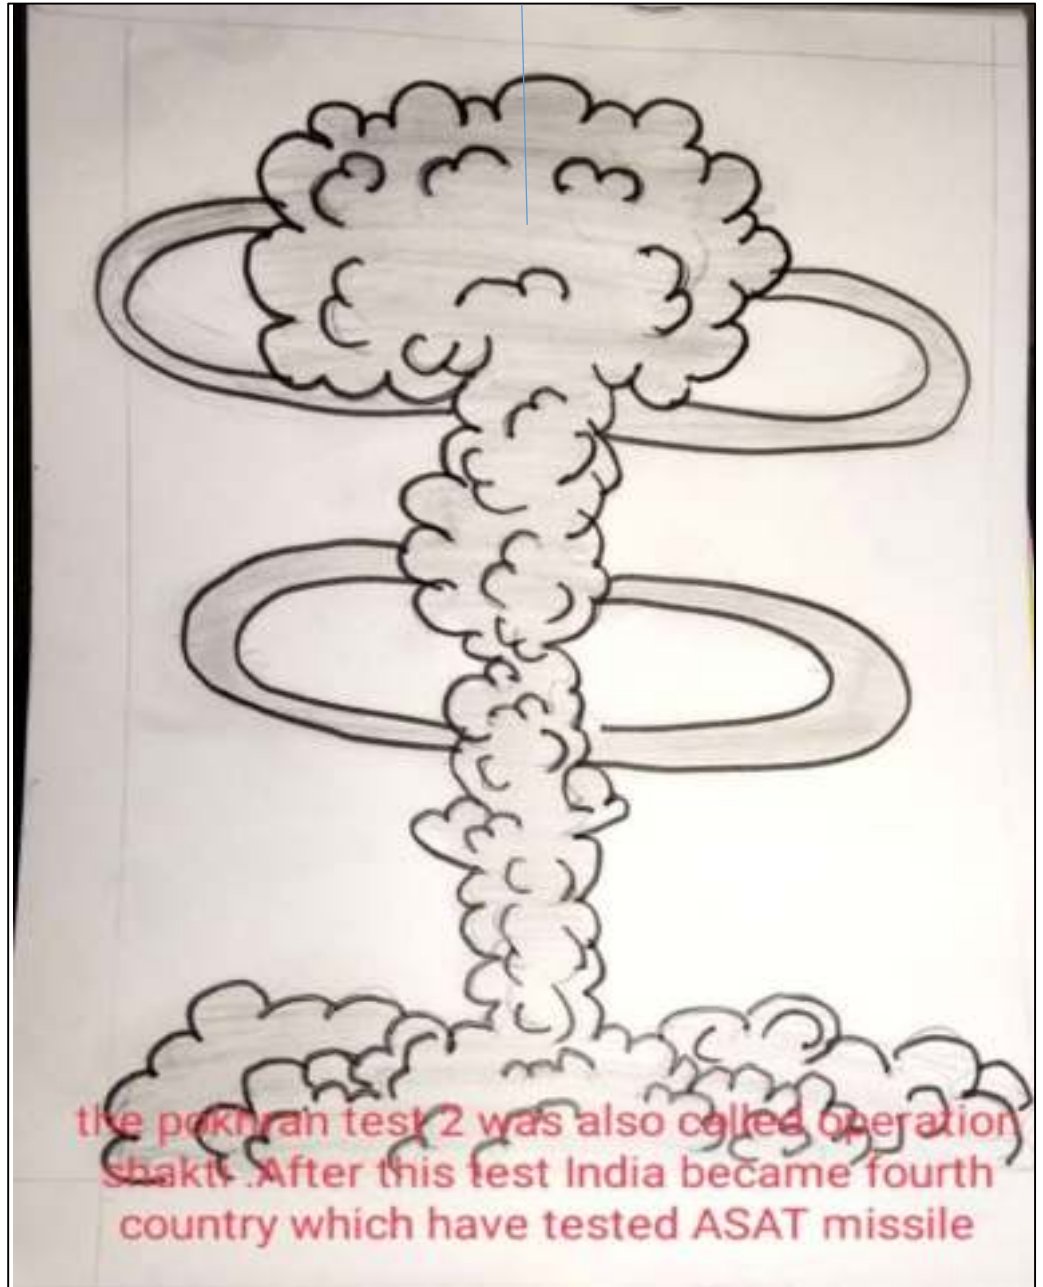

Recently I read a news about Pupul Bisht, a daughter of India who was invited to share her thoughts about the future of humanity on the platform of the 76th session of the United Nations General Assembly. She presented a vision for the future through folklore stories at the Sustainable Development Goals Moment. It was very interesting to learn that she follows a method of future analysis inspired by the Kaavad Katha of Rajasthan. Pupul told that the entire picture of the future is contained in the folk tales of India. I was so very curious to know about this art of storytelling and found some very interesting facts. Let's begin.. Kaavad is a 400 year old Rajasthani Oral tradition originated as a ritual, which involves a wooden box with painted doors and stories from mythology and folklore. The Kaavad is a mobile story-telling device that sometimes serves as a temporary temple. Kaavad is created by suthar, an artist is a chitrakar, and a story teller is a bhat. Kaavadiyas or storytellers would visit patron families and use the Kaavad to tell stories which drew from mythology (the Mahabharata, the Ramayana and Puranas), then turned to local folklore, and finally to the lineage of the family or clan itself. Through this storytelling, wisdom was also imparted.

### A NEW MODE OF EDUCATION THROUGH DIGITAL CLASSES

#### INTRODUCTION :-

A digital classroom is typically one that incorporates electronic devices and software into the learning environment. A digital classroom is where a physical classroom extends into a digital space. Because technology facilitates easy access to learning resources and networks, it's easier for students to track their progress and for professors to highlight student work in a digital classroom.

#### REQUIREMENT OF NEW MODE OF EDUCATION

Online education enables the teacher and the student to set their own learning pace, and there's the added flexibility of setting a schedule that fits everyone's agenda. As a result, using an online educational platform allows for a better balance of work and studies, so there's no need to give anything up. Studying online teaches you vital time management skills, which makes finding a good work-study balance easier. Having a common agenda between the student and teacher can also prompt both parties to accept new responsibilities and have more autonomy. Unlike in-person education methods, online education tends to be more affordable. There's also often a wide range of payment options that let you pay in installments or per class. This allows for better budget management. Many of you may also be subject to discounts or scholarships, so the price is rarely high. You can also save money from the commute and class materials, which are often available for free. In other words, the monetary investment is less, but the results can be better than other options.

These are only a few reasons to choose an online education, and why 90 percent of students today think that online learning is the same or better than the traditional classroom experience. Every student must assess their unique situation and decide according to their needs and goals, and while this alternative to traditional education is not for everyone, it's still a convenient option with virtually endless options for international students all over the world.

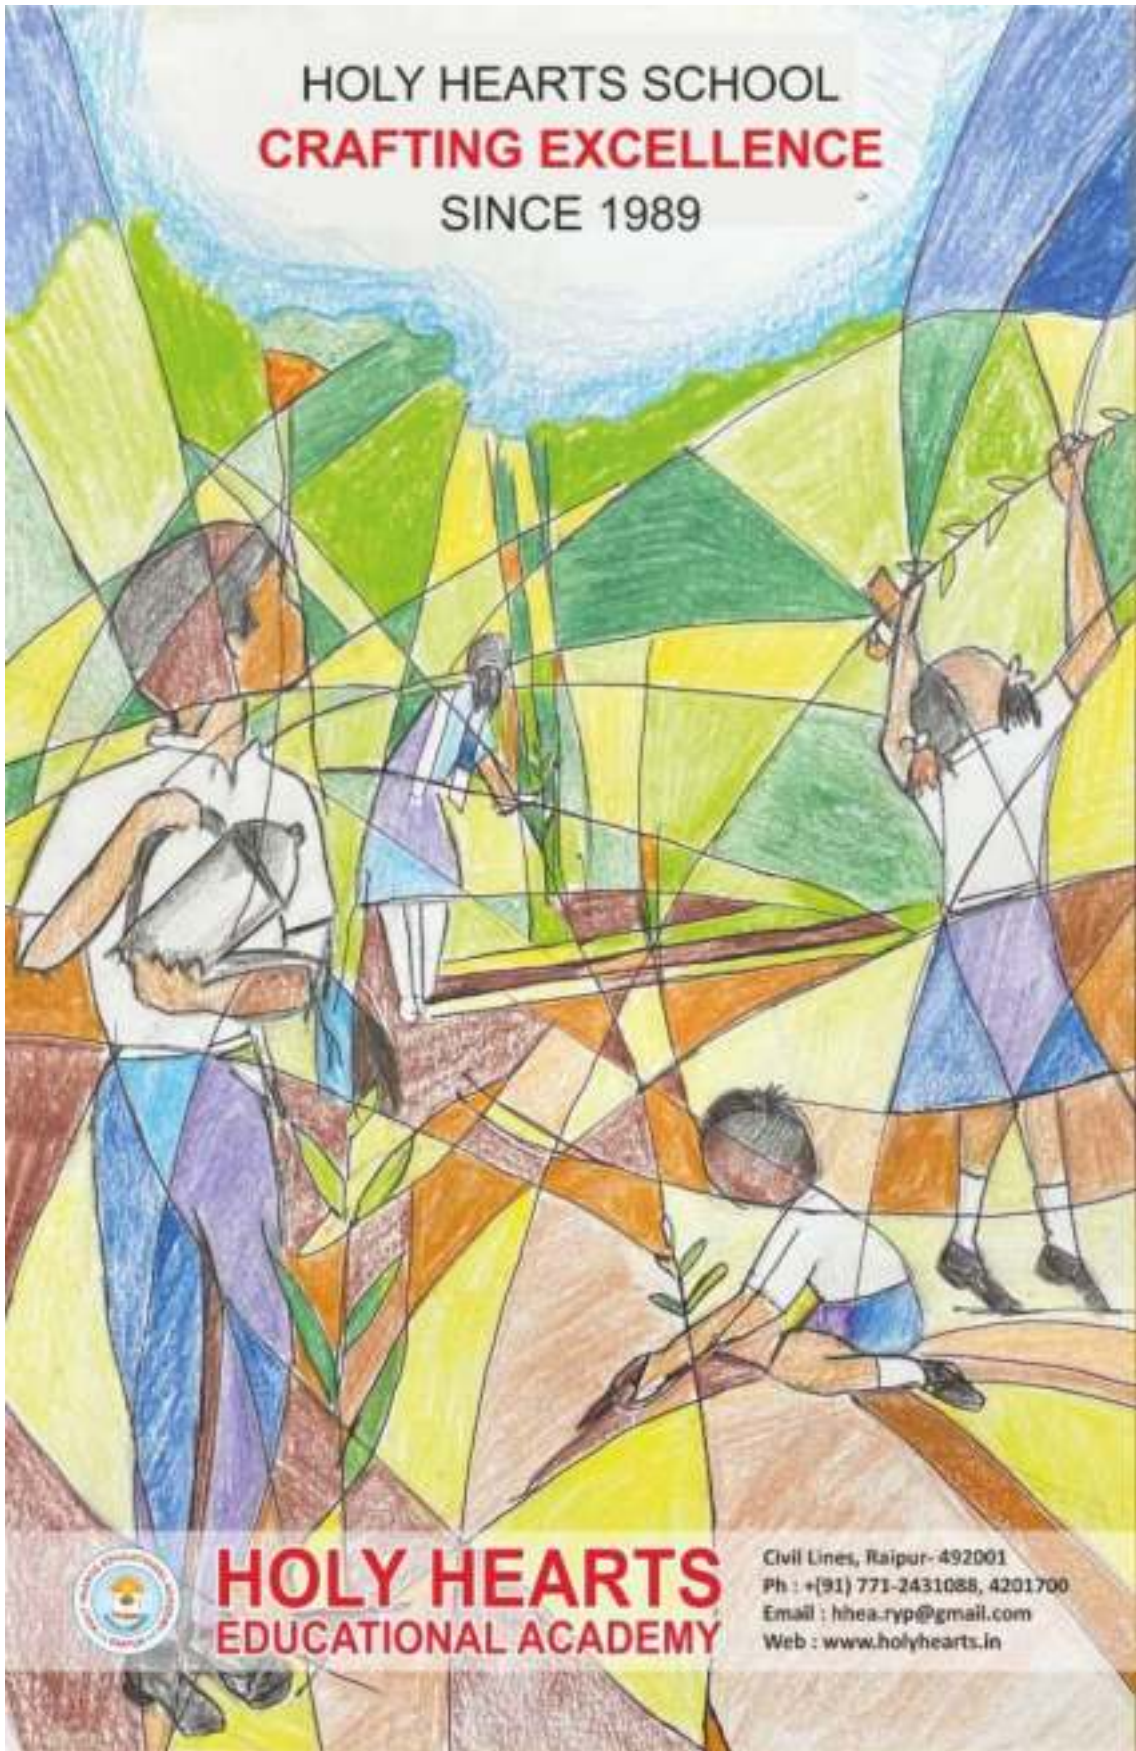

#### ADVANTAGES AND DISADVANTAGES

1. For many students, one of the biggest challenges of online learning is the struggle with focusing on the screen for long periods of time. With online learning, there is also a greater chance for students to be easily distracted by social media or other sites. Therefore, it is imperative for the teachers to keep their online classes crisp, engaging, and interactive to help students stay focused on the lesson.
  2. Advantage of online learning is reduced financial costs. Online education is far more affordable as compared to physical learning. This is because online learning eliminates the cost points of student transportation, student meals, and most importantly, real estate. Additionally, all the course or study materials are available online, thus creating a paperless learning environment which is more affordable, while also being beneficial to the environment.
